THE BEHRING SEA LETTERS. Mr. Blaine Universally Commended for His

Position-Arbitration Possible. Special to the Indianapolis Journal. WASHINGTON, July 24.-It is somewhat remarkable that the Secretary of State should be almost universally commended for his utterances to Lord Salisbury and Sir Julian Pauncefote concerning the Behring sea matter. Yet this was the situation at the Capitol to-day. The correspondence, or at least that portion of it which appeared in the local papers. was very generally read by members on both sides of the chamber, and scarcely a Senator was to be found who had not scanned the report of the correspondence. Only a few bitter partisans, who cannot see anything to commend in anything that a Republican does, had any words of censure to offer. One of these was Judge McCreary, of Kentucky, a member of the committee on foreign affairs of the House. He thought that Mr. Blaine had not exhibited the backbone which was to have been expected from him. On the other hand, Senator Morgan of Alabama, a member of the Senate committee on foreign relations, was one of the very warmest in praise of the manner in which Mr. Blaine has explained and maintained the position assumed by the United States in the controversy. He did not attempt to qualify praise, but characterizes the Blaine letters as masterly documents, which will always rank as among the very best of the state papers in the American archives.

better of the controversy. On the Republican side, there was very general rejoicing over the position of the United States. Every Senator on that side of the chamber, without a single exception, says that the correspondence is convincing proof that the position assumed by the government is the correct one, and the Democrats to a man admit this. No one fears for a moment that the outcome will be anything but a friendly settlement, but it will probably require some time before the end be reached. It is assumed as a matter of course that in spite of the fact that there has been a temporary suspension of negotiations the diplomatic representatives of England and Mr. Blaine will again try to bring about a settlement of the controversy without the intervention of outside parties, but it will surprise no one if the suggestion of arbitration of international differences between nations on the American continent, made in the pan-American congress, shall first be put into effect between the greatest republic on the earth and the greatest commercial nation of the world

Mr. Blaine has plainly convicted the Brit-

Views of the London Press.

LONDON, July 24.—The Telegraph regrets the asperity of the tone of Mr. Blaine in the Behring sea dispatches. "England," it says, "is strong enough to be calm and courteous, and is sufficiently fond of peace to disregard Mr. Blaine's petulance. England has no immediate interest in the question beyond seeing fair play. The dispute, resting on history, treaties, recorded rights and purchased privileges, constitutes a clear case for reference." It concludes with the suggestion that King Humbert, of Italy, or Emperor William be asked to arbitrate the matter.

The Chronicle says: "Mr. Blaine proves himself an abler man in controversy than Lord Salisbury, although having a worse case to defend. The representatives of England seem mere babies in the hands of Mr. Blaine. It is obvious that Lord Salisbury, at an early period of the discussion, became sensible of his inferiority in dialectic skill to his opponent lost his temper and deliberately insulted Mr. Blaine by declaring that he conducted the negotiations in the interests of a party, and not in the interests of the country. Clever as Mr. Blaine's logic may be, however, it does not alter the fact that no claim, Russian or American, no admission of John Quincy Adams can convert a vast open sea into a mareclausum."

The Times says: "The correspondence leaves matters worse. Under the sinister influences of party pressure President Harrison and Mr. Blaine have become more exacting, and have advanced, in an irreconcilable spirit, claims about which they once expressed diffidence. The question is now at a dead-lock."

PENNSYLVANIA'S MILITIA.

Their Camp at Mount Gretna Visited by the President-A Review in the Rain.

MOUNT GRETNA, Pa., July 24.—There were two important matters to engage the attention of the members of the National Guard at Camp Hartranft to-day, one being the arrival of the presidential party from Washington and the other the formal appointment of General Snowden, of Philadelphia, to be major-general, and successor of General Hartranft as commander of Pennsylvania's army. Governor Beaver at the same time directed a commission to issue to Colonel Dechert, promoting him to the command of the First Brigade. The presence of the President drew a great crowd, notwithstanding the fact that rain was falling. All the cavalry organizations were in line at the station when the presidential party arrived, and the troopers escorted them to General Snow-den's headquarters. Besides the President there were in the party Secretary of War Proctor, Postmaster-general Wanamaker, Attorney-general Miller, Major-general Schofield and two aids, Lieutenants Bliss and Andrews. The reception at head-quarters was cordial in the extreme, and President Harrison was greatly pleased. He paid the National Guard some high compliments, and referred to the magnificent showing of the division in Washington on the occasion of his in-auguration, at which time it also rained heavily. The review of the 9,000 troops, in-cluding the United States army detach-ment, took place at 4:30 o'clock. Notwithstanding the almost incessant rain, which, however, ceased during the parade, the men marched well and presented a fine appearance. At 6:30 the visitors returned to Washington delighted with their trip, and more than ever impressed with the practical strength and utility of the National Guard of this State.

Cut in G. A. R. Rates to Bostou.

CHICAGO, July 24.—The first cut in rates to Boston on the occasion of the G. A. R. encampment has come to light. The Missouri Pacific announces a rate of \$27.50 from Kansas City to Boston and return against the established rate of \$30.50. The Atchison and other Missouri river roads will meet the Missouri Pacific's cut, making the 1ate of \$27.50 apply by way of Chicago. Some of the Eastern roads have agreed to prorate with the Western lines on this basis. This is believed to be the beginning of a lively rate war.

What Chicago Has Done for Odd-Fellows. CHICAGO, July 24 .- The city of Chicago has given unusual countenance to the demonstration of Patriarchs Militant and Oddfellows that is to take place here the week of Aug. 3. Not only has it granted the use of the Lake Front Park for their competitive drills, displays and fire-works exhibitions, but the Council has declared Thursday, Aug. 7, a half holiday in honor of the occasion, and requested citizens to close their business-houses and decorate their premises. At least forty thousand members of the order, it is said, will take part in the parade.

Fact That Mugwump Liars Overlook. Philadelphia Inquirer.

President Harrison's effort to find a place in the tariff bill for Mr. Blaine's suggestions does not tend to confirm the story of a decided break between the President and the Secretary.

Republicans of Hancock and Rush Counties Name a Senator at Carthage.

Sound Resolutions Adopted-New Castle's Ghost Still Holding Forth-Brakeman Fatally Wounded in a Battle with Tramps.

INDIANA.

Senatorial Convention of Rush and Hancock Counties-Strong Resolutions. Special to the Indianapolis Journal.

RUSHVILLE, July 24.- The senatorial convention to nominate a Senator for Rush and Hancock counties was held at Carthage, this county, to-day. The interest manifested gives assurance that the nominee will be the next Senator from this district. John F. Moses, of the Rushville Republican, presided. John W. Comstock was made the unanimous choice of the convention. Mr. Comstock is a middle-aged farmer of Hancock county, and will be given the support of the voters of both Rush and Hancock. The following resolu-

tions were adopted: The Republicans of Hancock and Rush counties, in senatorial convention assembled, esteem ties, in senatorial convention assembled, esteem it appropriate at this time to express our continued confidence in the principles and aims of the national Republican party. That party has shown by its past record of loyalty to the Union and by its devotion to all the best interests of the people at large that it can be safely intrusted with power. And we believe that its past history is the best guarantee for its future faithfulness to every principle of good government and sound policy for the Nation.

We hereby heartily indorse the administration of President Harrison, and affirm our continued confidence in the ability and integrity of the President and his Cabinet to successfully administer the laws of our country.

ister the laws of our country.

We also esteem it proper to express our satisfaction with the work of the Republican Congress so far, and further, to exhort the Senate to

persevere in the course already marked out un-til they shall enact a law for the protection of

the ballot-box at every precinet in this broad land, and to secure every voter the privilege of voting and having his vote counted as cast. Also, that the Senate push forward the passage of a wholesome tariff law, such as has been sent to them by the House of Representatives. We also wish to express our earnest desire that our next State Legislature shall so amend the laws as to wipe out the infamous gerrymander of the legislative districts as they now stand on the statute books. The Republican party de-mands only just and honorable treatment, but it condemns any law by which one Democratic vote is equal to two or three Republican votes, and we demand that the next Legislature shall

remedy this great wrong. New Castle's Ghost Still Doing Business.

Special to the Indianapous Journal. NEW CASTLE, July 24.-The East-end ghost is still here and has enlarged its field of operation from the school-house park to a territory several squares in extent, at any part of which it is likely to appear or vanish. As two ladies were passing down the street near the school-house last Thursday night it suddenly appeared in front of them and kept near them for some distance. Flames of fire darted from its lurid eyes and its aspect was truly awful. They turned to go into the first house they came to, and with a fearful, blood-curd-ling noise, half yell, half hiss, the apparition disappeared. Late Saturday night it followed a man on his way home, keeping so close to him that its icy breath chilled him through. Scores of skeptical people have visited the neighborhood only to be convinced that the apparition is a reality and not the product of some fertile imagination or mischievous mind. An intoxicated man was killed in the neighborhood last winter on the railroad, and superstitious people insist that it is his troubled spirit returned to earth which is causing the excitement.

Live Chicken as a Poison Antidote,

Special to the Indianapolis Journal. ROCKPORT, July 24.—A novel cure for a poisonous bite has just been discovered by an old lady residing near here. Some time ago Henderson Griffith, a colored farmer, was bitten by something, he does not know what, while plowing in a field, where he reached in the weeds for a jug of water. In a short time his hand began to swell and continued until it had nearly doubled in size. All efforts to reduce the swelling and alleviate his sufferings proved of no avail, and for some time his life was almost despaired of. One day this week a neighbor proposed to cure it by cutting open a live chicken and binding it to the swollen member. This was done, and in a remarkably short time it had almost ceased to pain him and the swelling began to disappear. This remedy was repeated and he is now getting along nicely, and shouts aloud his praises of the old lady and her novel cure.

An Editor Brings a Libel Suit.

Special to the Indianapolis Journal. LOGANSPORT, July 24.—A sensation was created here to-day by the filing of a suit for criminal libel by C. O. Fenton, editor of the Times, the Prohibition organ, against the Republican. The affidavit states that a certain issue of the Republican falsely charges the affiant, Fenton, with a criminal assault upon a Logansport lady. Warrants have been issued for the arrest of the defendants, and a preliminary hearing will probably be had at once. There has been some feeling of a personal nature existing between the editors of the two papers, and this suit is the culmination of it.

Will Make It Interesting in the First.

Special to the Indianapolis Journal. EVANSVILLE, Ind., July 24.—There was convention of farmers and workingmen held at the court-house to-day, to nominate a candidate for Congress. The convention deliberated all day, and finally nominated Col. J. S. Wright, of Spencer county. The resolutions indorse, in a modified way, the single-tax idea, woman's suffrage and equal wages for women workers in all fields of labor, but they are silent on the liquor question. A joint convention of Posey and Gib-son counties nominated Larkin Wassem, of Gibson, for State Senator.

Bloody Battle with Tramps.

Special to the Indianapolis Journal. GOSHEN, July 24.-Last night a vicious gang of tramps undertook to take possession of the Lake Shore freight train, No. 48, at Ligonier. A furious battle resulted between the trainmen and the tramps, and in the melee brakeman Frank Houk was shot twice by a tramp and is not expected to live. Conductor Rockwood was severely pounded about the head and breast. The gang was finally repulsed and Lake Shore detectives sent after them, but no trace of them has been found.

Peculiar Hereditary Deformity.

Special to the Indianapolis Journal. COLUMBUS, July 24.-A peculiar case of hereditary deformity came to notice in this city to-day. There is a family residing in Brown county, three members of which have six toes on each foot. It is claimed by one of the senior members of this family that this deformity can be traced back through three generations. All the members of this family are robust and healthy.

Wholesale Tax Dodging.

Special to the Indianapolis Journal. COLUMBUS, July 24.—Considerable excitement has been created here by the County Board of Equalization now in session. On account of the extreme high taxes and inefficiency of the assessors the tax duplicate in this township is short of

War Against a Pentecost Band. Special to the Indianapolis Journal.

MONTICELLO, July 24.—There is a lively war between the Pentecost Band, No. 19. and the citizens of Atwood, Piatt county. These bands have a tent, and they go from city to city. At Atwood their tent has been cut down and they have been egged. The windows of the house in which they sleep were broken, and several shots fired at them.

CLOSED ITS SEASON.

The Indiana League Comes to a Sudden Decision-Programme for Next Year.

Special to the Indianapolis Journal. MUNCIE, July 24.-Much indignation is expressed here to-night at the result of the meeting of the State Base-ball League directors held in this city to-day, especially so when it is known that she Muncie representative was the main factor in causing the disbandment of the League for the present season.

President McCullough, of Anderson; Secretary Schroeder, of Fort Wayne, and Directors Heilbroner, of Fort Wayne; Birchley, of Anderson; Brundage, of Muncie, and Herron, of Kokomo, were present, with no one representing Peru, which cost the latter organization a fine of \$50. The object of the meeting was to consider Logansport's membership. Secretary Schreder, having accepted their terms was recognizing them as a member, but Muncie and Anderson objected to their membership without the guarantee fund, which cie and Anderson objected to their membership without the guarantee fund, which caused a heated debate, in which Brundage, who was in favor of closing the season on this date, won. Kokomo was over-anxious to quit, as was Muncie, with Anderson on the fence, and they soon fell Muncieward, leaving Fort Wayne out in the cold, making a big kick, but the vote of 3 to 1 was enough, The season was closed with the following as the club standing: Lost. All the clubs will pay one hundred cents on the dollar, while Muncie and Fort Wayne were shown to be the only teams that made money on the venture. A season of twentyfour games, six each, between Muncie, Anderson, Kokomo and Fort Wayne will be arranged to-morrow for the four clubs, who will play exhibition games for the championship of the State, the winner of each game to get 60 per cent. of gate receipts, each city retaining her team until the games are played.

Special to the Indianapolis Journal.

PERU, July 24.-A thunderbolt from a clear sky would probably have produced less excitement in this city than the announcement this evening that the Indiana League had disbanded. Neither President Falk, of the Peru club, nor any director had knowledge that any such movement was contemplated, and the surprise is a stinging one, falling immediately after their thorough reorganization, and showing up of the finest club in the League. Notwithstanding the former disadvantage of occupying the lowest position of all, the Peru club was in to stay to the end of the season, and now can pay every penny of indebtedness without touching their share of the sinking fund from the

It is probable that unless there is a heavy rain between now and Monday a sprinkling-wagon will be turned loose on the out-field in order to soften up the ground somewhat. The flag will be run up Monday morning and the grounds will then present the old-time appearance. The opening game will be played by Brook-lyn and Cleveland Monday afternoon.

CRACK TROTTERS AND PACERS. Big Purse Won by Walter E. at Detroit-Al-

DETROIT, July 24.-Early this morning & very heavy rain fell, making the track at the Detroit Driving Club Park somewhat slower than it was the two previous days of the meeting. About 11 o'clock the sun came out and brought with it an attendance of about 10,000 persons. Three hotlycontested heats were necessary to determine the unfinished ten-thousand-dollar Merchants' and Manufacturers' stake--2:24 class-four heats of which were trotted yesterday. Walter E. won the afth and seventh heats and the race. In the 2:18 class, best two in three, Alfred S. won easily in two straight heats. In the first heat of The Horsemen's Great Expectation stake, for four-year-olds, worth \$9,500, Margaret S. distanced all competitors, with the gestion restored by Simmons Liver Regulator.

Some Baking Powders Lose Their Strength Quickly.

For twenty-five years the Royal Baking Powder Company has refused to be controlled by the mania of its competitors—to produce a cheap baking powder at the sacrifice of quality or wholesomeness. Some lowercost brands are now being pushed on the market, which are made of inferior materials and lose their strength quickly after the can is once opened. At the second or third baking there will be noticed a falling off in strength. It is always the case that the consumer suffers in pocket, if not in health, by accepting any substitute for the Royal Baking Powder, especially when the substitute is offered on the ground that it is cheaper.

• The Royal Baking Powder is the embodiment of all the excellence that it is possible to attain in an absolutely pure powder. It is always strictly reliable. It is not only more economical because of its greater strength, but will retain its full leavening power until used, and make more wholesome food.
